Game Night is a supportive **social skills** therapy group where teens (ages 14-17) connect through cooperative board games, video games, party games, and other interactive activities.

Each week features a different game, creating natural opportunities to **practice conversation, teamwork, flexibility, problem-solving, and friendship skills** in a relaxed, low-pressure environment. Led by a Board Certified Behavior Analyst (BCBA), the group provides individualized coaching and support while keeping the focus on having fun.
